

PERFORMANCE SYSTEMS INTEGRATION

Performance Systems Integration has been helping protect people and property since 2001. We offer a broad range of life safety services and programs designed to meet the specific needs of each facility we service. As a locally owned and operated business we understand the local codes and regulations. We also take great pride in quickly responding to our customers' should an unexpected need for emergency service be required. Our highly trained staff can service all types of fire alarm, security, suppression, and communication systems, regardless of the size, complexity, or system manufacturer.

We are committed to exceeding our customer's expectations. We are proud to provide you with a single source for your life safety service needs.

Single Source for Life Safety System Services

PREVENTIVE MAINTENANCE PROGRAMS

We can customize a preventive maintenance program that provides you with a single source for all of your life safety systems. A service representative will meet with you, tour your facility, and develop a service agreement to ensure your systems are tested, inspected and maintained to keep them operating at peak performance. Your agreement may include inspections, testing, parts replacement, emergency services, repair, maintenance or other services we provide.

FIRE ALARM SYSTEM SERVICE

The most current techniques and equipment are utilized on every inspection to meet the rigorous requirements of today's complex fire alarm systems. We make a special effort to thoroughly test and inspect all of your systems components for proper operation. We can significantly reduce unwanted false alarms by keeping your smoke detectors clean and ready to respond at the required sensitivity level. Upon completion we will provide you with detailed documentation as outlined by the National Fire Protection Association and your local authority.

SECURITY SYSTEM SERVICE

We have established a successful track record in designing and installing integrated security systems. Our technicians are experienced in servicing the access control, intrusion, closed circuit television and communications systems that protect your building and its occupants from any unwanted entry.

FIRE SUPPRESSION SYSTEM SERVICE

Our service technicians are skilled in the inspection, maintenance, and servicing of all types of fire suppression systems.

- Automatic Sprinkler Systems
- Special Hazard Systems
- Portable Fire Extinguishers

COMMUNICATION SYSTEM SERVICE

We are well versed on the service and training needs for all types of sound and nurse call systems. We have provided and serviced nurse call systems for hospitals and nursing homes of all sizes. We understand what it takes to make sure these critical systems are operating as designed and your staff is properly trained to maximize system operation.

MONITORING SERVICE

In order to provide you with a greater level of protection our Central Station Monitoring service is supported by a UL and Factory Mutual Certified facility. Our professional operators are trained to identify incoming alarms and notify the appropriate authorities and responsible individuals needed for response. Our monitoring center is on the job when you can't be.

SERVICE 24-HOURS A DAY

Performance Systems Integration service representatives are on call and available 24/7 for prompt dispatch to your facility. We will develop a plan to deliver the needed level of response so you'll know your people and property are protected around the clock.
